\$57.40

GC G-BOND™

GC G-BOND™ is a one component, one coat bonding system for light-cured composites.

- Simple 20-second application
- No postoperative sensitivity
- No marginal staining or discoloration
- Etch, desensitize, prime and bond in one easy step
- Consistent, reliable bond strengths to enamel and dentin

SKU:002277

Now **\$275.80**

G-aenial™ Bond

- Improved bond strengths to both enamel and dentin
- Designed specifically for selective etching technique to give the professional the maximum advantages
- Easy application – 30 seconds from application to finish

SKU:011942

Now **\$285.10**

G-Premio™ BOND

- Compatible with total-etch, self-etch and selective etch techniques
- Use in combination when repairing glass or hybrid ceramics
- Ideal for hypersensitivity
- Light-cured
- Low film thickness of 3 microns

SKU:012691

Now **\$240.10**

FujiCEM 2

- Resin-modified glass ionomer luting cement powered by F2 Flex Fuse Technology that increases strength properties
- High fluoride release, low film thickness and excellent marginal integrity
- Superior bond strength
- Automix Paste Pak dispensing system ensures a consistent mix every time

SKU:451001

Now **\$280.20**

FujiCEM™ Evolve Glass

- Syringe delivery provides ergonomics
- No need for dispenser
- Easy, quick cleanup
- Improved radiopacity for easy visualization on X-rays
- Shelf life: 24 months

SKU:002277

Now **\$455.40**

G-CEM LinkForce™

G-CEM LinkForce™ is a dual-cure adhesive resin cement that provides a strong bond in virtually all indications. System is comprised of 3 base elements for secured adhesion, allowing you to rest easy when it comes to placement of restoratives.

SKU:010118

Now **\$320.80**

LC Orthodontic Cement

- Bonds in a wet field
- Low sensitivity to moisture and can be used in the presence of saliva
- No etch required; use with or without etching enamel
- Significant fluoride release and recharge
- Prevents caries formation

SKU:439401

Now **\$280.10**

Universal Flo Composite, 3.4 g

G-aenial Universal Flo is a nano-hybrid, light-cured composite that has the easy handling of a low-flow (high viscosity) flowable. Advancements in filler technology led to a new silanation process, resulting in a product that is 69% (by weight) filled with 200 nm homogeneously dispersed particles. It also has thixotropic attributes that allow the material to have easy handling and placement. This flowable also has a beautiful finish and maintains its gloss

SKU:004203

Now **\$150.80**

Gradia® Core Build-Up

- Optimal consistency, long working time
- Modulus of elasticity is similar to dentin and fiber posts
- High flexural and compressive strength
- The excellent flow prevents voids in the bonded post and core
- High bond strength to enamel, dentin and fiber posts
- High microtensile strength
- Rapid, deep dual cure
- Cutting characteristics similar to dentin
- Radiopaque

SKU:003652

Now **\$143.80**

G-aenial A2 Bulk Injectable

- Universal, light cured
- High flexural strength and easy to manipulate
- Provides durable and long-lasting restoration

SKU:012395

Now **\$111.10**

Flo X Composite

- For use as a liner or base
- May also be used for filling undercuts, tunnel restorations, fissure sealing and Class V restorations
- Light cured
- High wear-resistance

SKU:008318

Now **\$102.15**

GRADIA® DIRECT Flo Composite

GRADIA® DIRECT Flo Composite is a light-cured, highly flowable composite. Designed to be used in combination with GRADIA® DIRECT, its physical properties, flow characteristics and direct application make this material ideal as a liner under composite restorations. Its nonsticky formula shapes perfectly to cavity walls, making it easy to handle

ModuLiteX

Broadband LED Curing Light System

Introducing a cutting-edge modular curing light with Polymerization and Illumination Modes, seamlessly merging convenience and versatility. State-of-the-art optics and four collimated LEDs guarantee uniform power distribution, optimizing the curing process. With one-button operation and a metallic body structure featuring the MaxGrip surface, it offers user-friendliness, durability, and effortless handling.

Metallic Structure

Stainless steel and anodized aluminum provides a robust construction that can withstand the rigors of frequent use.

Uniform Power

4 Collimated LEDs design provides a uniform light distribution over the entire curing area. The ModuLite™ Curing Light delivers an average irradiance of 2000 mW/cm2.

Versatility

This cutting-edge modular curing light equipped with polymerization and detection modes, seamlessly merging convenience and versatility. This cutting-edge modular curing light equipped with polymerization and detection modes, seamlessly merging convenience and versatility.
