DENTAL TECHNOLOGIES

Splint Resin Acrylic

A high density, extra-strong acrylic

ideal for the fabrication of splints such as TMJ, Gelb, etc. Will not chip, break, or mar easily. Crystal clear so it will not show when worn.

Kit includes:

1lb Polymer, 8oz Monomer, Applicator Bottle, & Eye Dropper.

#040-008 **\$107.80**

Also Available:

5lb Splint Resin Kit

#040-001 **\$410**

8oz Splint Monomer

#040-009 **\$41.50**

1lb Splint Polymer

#040-010 **\$72.10**

Variflex™ Heat-softening Acrylic

Flexible and patient friendly for doctors.

Quick and easy to process

Variflex comes in liquid/powder form and can be press-packed or poured. Resilient and self-adjusting for optimal comfort, Variflex softens under warm tap water to provide excellent "snap-fit" retention. Offers superior clarity. Bonds to cold cure and requires no refrigeration. No methylmethacrylate or plasticizers.

1/2lb Starter Kit: 1/2lb polymer, 4oz monomer

#046-002 **\$210.60**

1lb Economy Kit: 1lb polymer, 8oz monomer

#046-001 **\$350.10**

1lb Polymer 046-004 **\$292.40**

5lb Polymer 046-006 **\$1240.80**

8oz Monomer 046-003 **\$94.70**

1qt Monomer 046-005 **\$261.90**

Durasoft[®]

(Hard/Soft Dual Laminate) Pre-dried/vacuum packed

Eliminates pre-drying.

Break and abrasion-resistant. Offers fast fabrication, uniform thickness, and consistent high quality. Hard side bonds to acrylic.

Clear - Round

Arti-Fol® Articulating Film

Ultra Thin 8 Microns, 20 m in Dispenser, 22 mm Wide

Bausch Arti-Fol® articulating films are especially suitable for representing static and dynamic occlusion in several colors. First inspect the concentric contact (static occlusion) in red and then inspect the eccentric contacts (dynamic occlusion) in black.

- Color sequence can always be alternated
- More colors can be used for a precise representation of dynamic occlusion

Specially developed for CAD/CAM all-ceramic restorations, Biomic Stain/Glaze allows dental technicians to achieve highly esthetic, natural-looking restorations through a fast and simple workflow.

BIOMIC AESTHETIC KIT

SKU: ACStainAes

SALE PRICE
\$1,405.80 CAD

REGULAR PRICE
~~\$1,562.00~~ CAD

KIT INCLUDES

- 20 Shade Pastes (4g each)
- 3D Pastes (4g each)
- Coloring Liquid 1 & 2
- Accessories

WHY CHOOSE BIOMIC STAIN/GLAZE?

ALL IN ONE

It can replace the dye required by various external dyeing operations. Suitable for various manufacturers and various types of ceramic restorations.

SIMPLE TO USE

Same steps as general stain and glaze. Contains ceramic powder particles for porcelain-like results with high permeability and fluorescence.

BIONIC AESTHETICS

3D paste with larger ceramic particles and unique anti-collapse performance. A small amount delivers superior surface texture and enhanced anti-wear performance.

KEY BENEFITS

- ✓ All-in-One System
- ✓ Simple to Use
- ✓ Bionic Aesthetics
- ✓ High Permeability & Fluorescence
- ✓ Natural Tooth Optical Effects
- ✓ Superior Surface Texture Effects
- ✓ Enhanced Anti-Wear Performance

BIOMIC GUM KIT

Renfert Polish all-in-one

Universal polishing paste with a wide spectrum of diamond grain sizes, for extra-oral use. Quick, high-gloss finish on various materials such as lithium disilicate, zirconium dioxide, veneering ceramics and high performance polymers.

SKU 5100100 **\$81.80**

Stain-Mix Mixing Tray

Advantages

- Black lid for light curing stains.
- 30 small wells with sharp edges for wiping the brush.
- 1 large well for glaze liquid.

SKU 10650100 **\$115.80**

Basic eco

25-70 µm/70-250 µm, 120 V

Advantages

- Great cost efficiency through special mixing chamber technology (Venturi-Principle).
- Precise sandblasting due to excellent illumination of the blasting chamber with LED technology
- Sufficient freedom of movement in the large sandblasting chamber.

SKU 29494025 **\$1300**

Cobra White Alum. Oxide, 50mic

12.5 KG

Advantages

- Extremely sharp-edged.
- Low to very high abrasive effect dependant on size
- Extremely pure – approx. 99.7% Al2O3.

SKU 15941112

Each	2-3	4+
\$200	\$190	\$180

Vortex compact 3L

Device extraction unit

Advantages

- Health protection due to double filter system, optional H/Hepa filter available.
- 25% increase of the filter capacity at the push of a button with free filter system.
- Virtually dust-free disposal of collected dust by means of extremely tear-resistant.
- Large filter bags (15 L)

SKU 29246000 **\$1450**

GEO Classic Basic Set

Cervical wax, Modeling wax

Advantages

- High precision due to coordinated flow and modeling properties.
- Flexible working as it is suitable for using the electrical wax knife and the Bunsen flame.
- Processing safety in full and press ceramic techniques due to the fact that it is an organic, transparent modeling wax which burns-out residue-free.

SKU 4930004 **\$79.00**

Waxelectric II Electric wax knife

Advantages

- Temperature setting to a precise degree ensures controlled working processes.
- Direct access of preferred working temperatures using the programming function.
- Fast heat-up rate and low heat transfer to the handle thanks to the heating element integrated in the tip.

SKU 21571000 **\$620.00**

Sintering furnace MV-R

\$15,600

Flexibility is more in demand today than ever before. Innovative materials need innovative solutions. And so the MV-R has its finger on the pulse when it comes to the precise sintering of modern zirconium oxides.

- Extremely Fast with 200°C per Minute
- Extremely High Temperatures with a maximum heat of 1650°C
- Highly Precise with an accuracy of +/- 1°C at 1500°C, controlled device cooling and linear cooling
- High TEC through the latest control technology and molybdenum disilicide heating elements PRO
- Full Flexibility 4 sintering modes with SPEED-Motion, SPEED-Plus, SPEED and Classic
- Easy Programming & Controlling via the 7" touch display and clear menu navigation
- ON POINT with timer function, detailed device diagnostics via QR code and access via USB interface

Preheating furnace KMP7

\$5800

Longevity and a permanently fault-free operation are assured with high quality materials and excellent finishing. A special powder coating protects the stainless steel housing against aggressive substances. The fireclay inner coating meets the highest quality requirements and ensures long-term durability. Our pre-heating furnaces also have a timer function and controllable sockets for additional equipment.

- Maximum temperature 1150 °C
- Thermocouple PtRh-Pt, Type S
- Individually controlled outlets for additional devices
- Timer function

Sirio

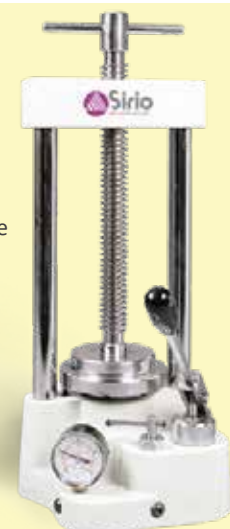

SIRIO DENTAL DIVISION

P 400 - Hydraulic press

The hydraulic press is used by the dental technician to mould mobile prosthesis. The hydraulic press P400 is able to clamp up to 3 muffs and reach a maximum pressure of 400 bars, exerting on the muffs a force of 15000Kg. (150.000 N). This is an excessive pressure and in order not to damage the muffs, the working pressure must be limited to 200 bar. The oil-pressure circuit is fully airtight and doesn't need any maintenance.

Focus on the essential value-creating activities. Guided workflows, from cleaning to maintenance, tool and holder management safeguarded against mix-ups, and semi-autonomous operation give you the freedom to devote yourself entirely to your profession instead of machine handling. With the integrated camera, our Support will assist you in remote mode to let you continue working as quickly as possible after interruptions due to irregularities in the milling process. The automatic reminder function for maintenance, care and service cycles in addition provides for reliability and guarantees a long service life of the machine.

2 YEARS FINANCE 0% INTEREST

The most intelligent 5-axis hybrid machine not only combines **Wet** and **Dry** processing in a single machine, but also enables an end-to-end digital workflow.i

Smartmix X2

The Smartmix X2 can be used universally and delivers homogeneous results. Be it for plasters, investment materials or paste-like silicones and impression materials. The vacuum mixing machine is an indispensable and productive tool in the dental laboratory
